*Always follow manufacturer's instructions on bag and consult them for best water/grout ratio for particular temperature & humidity conditions.

Re-certification of these products is required every 5 years in order to remain on the QPL.

NOTE: These products are not to be used for any overhead sustained tension anchoring applications. Any sustained tension in non-overhead applications will require pull-out and creep testing according to the Epoxy Anchoring Adhesives Product Acceptance Criteria. PLEASE NOTE: Products often times may have multiple uses. Products appearing on this particular list are expressly pre-qualified for this category of usage only. Do not use these products for any other application unless this product is noted on other lists.

Sales Representatives seeking approval of a new product should submit their product's Materials Technical Data Sheet, Instructions for Installation, Material Safety Data Sheet, and a completed copy of the [MaineDOT Preliminary Information for Product Evaluation Form](#). If you are experiencing difficulties reading or printing this page, or any page on the Qualified Products List website, please contact the Product Evaluation Coordinator at 207-624-3268.
